1. INTRODUCTION

The Kickz Inu white paper aims to inform readers about our vision, strategy and roadmap. Below we illustrate in detail our atypical redistribution mechanism which combines both rewards in Kickz Inu and physical rewards such as Sneakers through unique NFTs having for the first time on the BSC a utility.

  @KickzInu

Z.PRESENTATION AND HISTORY OF KICKZ INU

Welcome to the world of Kickz Inu, the coolest meme on the BSC. He's a sneaker enthusiast who's only too happy to share his passion with you!

Kickz Inu is a deflationary token on the one hand and on the other hand offers two types of reflections to its holders. Firstly, rewards in Kickz Inu that are automatically added to your wallet and secondly, rewards in real limited pairs of sneakers in the form of unique NFTs that can be traded on our NFT platform.

3.KICKZ INU ROADMAP

Q1

- . Launch of the Website.
- . Shill Army
- . White Paper
- . Private Sale
- . Setup Social Media
- . 10,000 Telegram bio members
- . Contest
- . PooCoin Ads
- . Presale
- . Launch of the NFT platform
- . 1st sale of NFT

- Rewards 5%
- Marketing 3%

Sell Tax → 16%

- Liquidity Pool 3%
- Rewards 5%
- Marketing 4%
- Burn 4%

5.1 PLATEFORME NFT

Kickz Inu has its own NFT platform where you can trade different types of NFT related to the Kickz Inu universe.

There will be two types of NFTs, as follows:

1) Kickz Inu NFTs which will be NFTs representing the coolest meme of the BSC wearing his favorite pairs of sneakers through the biggest cities of the world.

The NFT Kickz Inu will be classified according to their rarity, here are the different types of categories:

- Sneakers (2 copies)
- Ultra rare (4 copies)
- Rare (10 copies)
- Uncommon (20 copies)
- Common (40 copies)

They will be sold, bought and exchanged on our platform.

5.2 PLATEFORME NFT

2) The NFT Sneakers, they will be NFT representing limited pairs of Sneakers part of the collection of Kickz Inu. They will be represented in the form of a collector's card.

The only way to get them is to win them through the various contests that will be set up or to buy them from other winners via our platform.

What are the NFT Sneakers for?

These NFT Sneakers represent your pairs of Sneakers, real pairs.

(e.g. if I win an Air Jordan 1 Chicago, instead of receiving the pair directly in physical form, I receive the unique NFT of the Air Jordan 1 Chicago of which I will be the one and only owner.)

I have several options:

- I want my real pair -> I choose on the platform to destroy my NFT and I transmit my postal coordinates to have the pair delivered.

- I want to sell it -> I put it on sale on our platform and anyone can buy it from me and become the only owner, he will then be able to resell it at a higher price or not or ask to receive it physically by destroying the NFT.

- I want to exchange it -> I can exchange my NFT on the market place that represents the real pair for someone else's or for an NFT Kickz Inu.

In short, the NFT Sneakers is a title deed to the real pair of sneakers.
